

TEAM 17

MEETING 31/08

31 AUGUST 2023 / 6:00 PM

Attendees

Rick Blanken Forth (Client), Jack Thompson (Client Liaison), Aaron Han, Terese Dalapu, Tyler Saito, Ryan So

AGENDA

I. Iteration 2 Presentation

- Presented Iteration 2 Slides to Rick

II. Client Feedback

- Feedback for Presentation:
 - With sorting it should be able to be sorted by not just bin location but by stock number as well
 - Price:
 - it would be good if we could override the price.
 - Inclusion of Memos at end of order for notes
 - These can sometimes include request for a particular carrier
 - Could also be used to put a new customer in or a new address. These are typically under 'Cash Sales' account in MYOB
 - Inclusion of Messages at end of each item
 - Suggested workaround by Rick: memos could be included to bypass overriding the price
 - "above item should be \$12 not \$15"

- Priorities:
 - Pricing is most important.
 - Bale and single price is in the MYOB system. Overriding is not mandatory, this can be overcome by the messages instead.

III. Follow up Business Vision, Acceptance test, Implementation plan

- Client has not viewed these yet as they have been very busy and asked this to be resent
- Implementation plan and Acceptance Test explained as a preface

IV. Check on how Rick wants to handle new customers and items

- How often do you get new items or customers?
 - New customers at a trade show is frequent, otherwise not often. At August trade show they had 25 new customers.
- Preference of Interval Refreshing vs button selection
 - Rick prefers button selection to
 - Rick is concerned about being off the road, when would this be updated to MYOB. With internet access it would be designed to be immediate
- If we refresh the data at regular intervals what interval would the client prefer?
 - Once a day (Midnight roughly)

NEXT MEETING'S AGENDA

- Showcase of Iteration 2

SUMMARY

- Presented Iteration 2 and received feedback
 - Received information about memos & notes
- Team will resend Acceptance Testing information and related documents
- Refreshing from MYOB question answered by Rick – ideally once a day
