

Testing Runsheet

Production Link: <https://prod.u23s1017.monash-ie.me/>

Login System

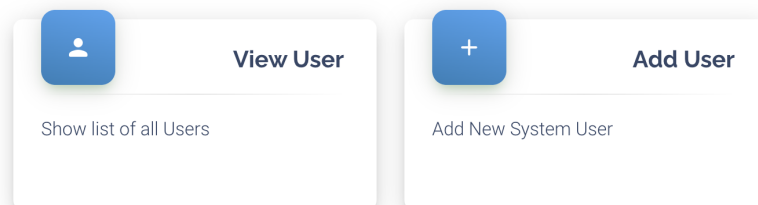

When you first enter the website you will be sent to the login page. The system is password protected so you will need valid login credentials to gain access to the remainder of the website.

Admin user: (email: rick@ibaustalia.com ,password: IBAU12345)

Normal user: (email: 123@gmail.com , password: 123456789A)

Manage User Accounts

If you are logged in with an admin user account you should be able to see a pair of buttons on the home screen labelled 'View User' and 'Add User'

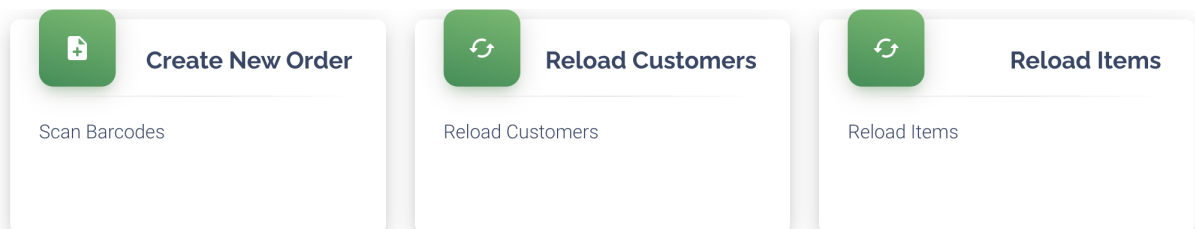

Clicking 'View User' will show a list of all current user accounts in the system. From here you should be able to edit and delete existing users.

Clicking 'Add User' will show a form through which you can add a new user account.

Create New Order

Regardless of whether you are logged in with an Admin or Normal user account, you should see three green buttons labelled 'Create New Order', 'Reload Customers' and 'Reload Items' respectively.

Clicking 'Create New Order' will begin the ordering process.

Click 'Reload Customers' or 'Reload Items' will refresh the system's connection with MYOB, downloading a copy of the latest data on Customers and Items respectively.

Customer Search

Existing Customers:

When creating an order for an existing customer please search for and select the name of the business, then click the button labelled 'Next' to create a new order for that customer.

New Customers:

When creating an order for a new customer please search for and select Cash Sales before clicking 'Next'. You can then add the customer's shipping address and delivery instructions in the memo field on the next page.

Mange Orders

Once you have selected either a named customer or the 'Cash Sales' account, clicking next will take you to the New Order page. From here you can add new items via either the included barcode scanner or by manually typing out the barcode.

Example Barcode for scanner

After an item has been added to the order you may specify the desired quantity of each item. The item price and subtotal will update automatically when altering quantities.

If you have any additional information you would like to include, please record this in the provided memo field.

When you are satisfied with the order, click 'submit' button. This should redirect you to the homepage before flashing a confirmation message to show your order has been saved to MYOB.
